Welcome, You are About to Become an Artist

- Your Art Class recommends an art Portfolio (Binder) for each student with plastic sleeve protectors to put the artwork in.
 - Cardstock is recommended to do the artwork on because it is thicker than regular copy paper, and therefore easier to work on.
 - Your Art Class is encouraged to draw your own rendition of the art lesson if not initially, then eventually.
 - Each lesson has black and white drawings that can be completed using colored pencils, markers, watercolors, or crayons.
 - Encourage yourself, encourage someone else! You are doing great.
 - Pay attention to the background! Make sure it is complete!
 - Check the finished piece to see if it is signed and dated every time.
 - Each student should try to come up with a title for their individual completed art work. Some students may need assistance. It really is a fun activity.
- Have Fun! Art Rules!

Series D, 4th Qtr, Week 40: Your Art Class Experiences the Justice of Libra

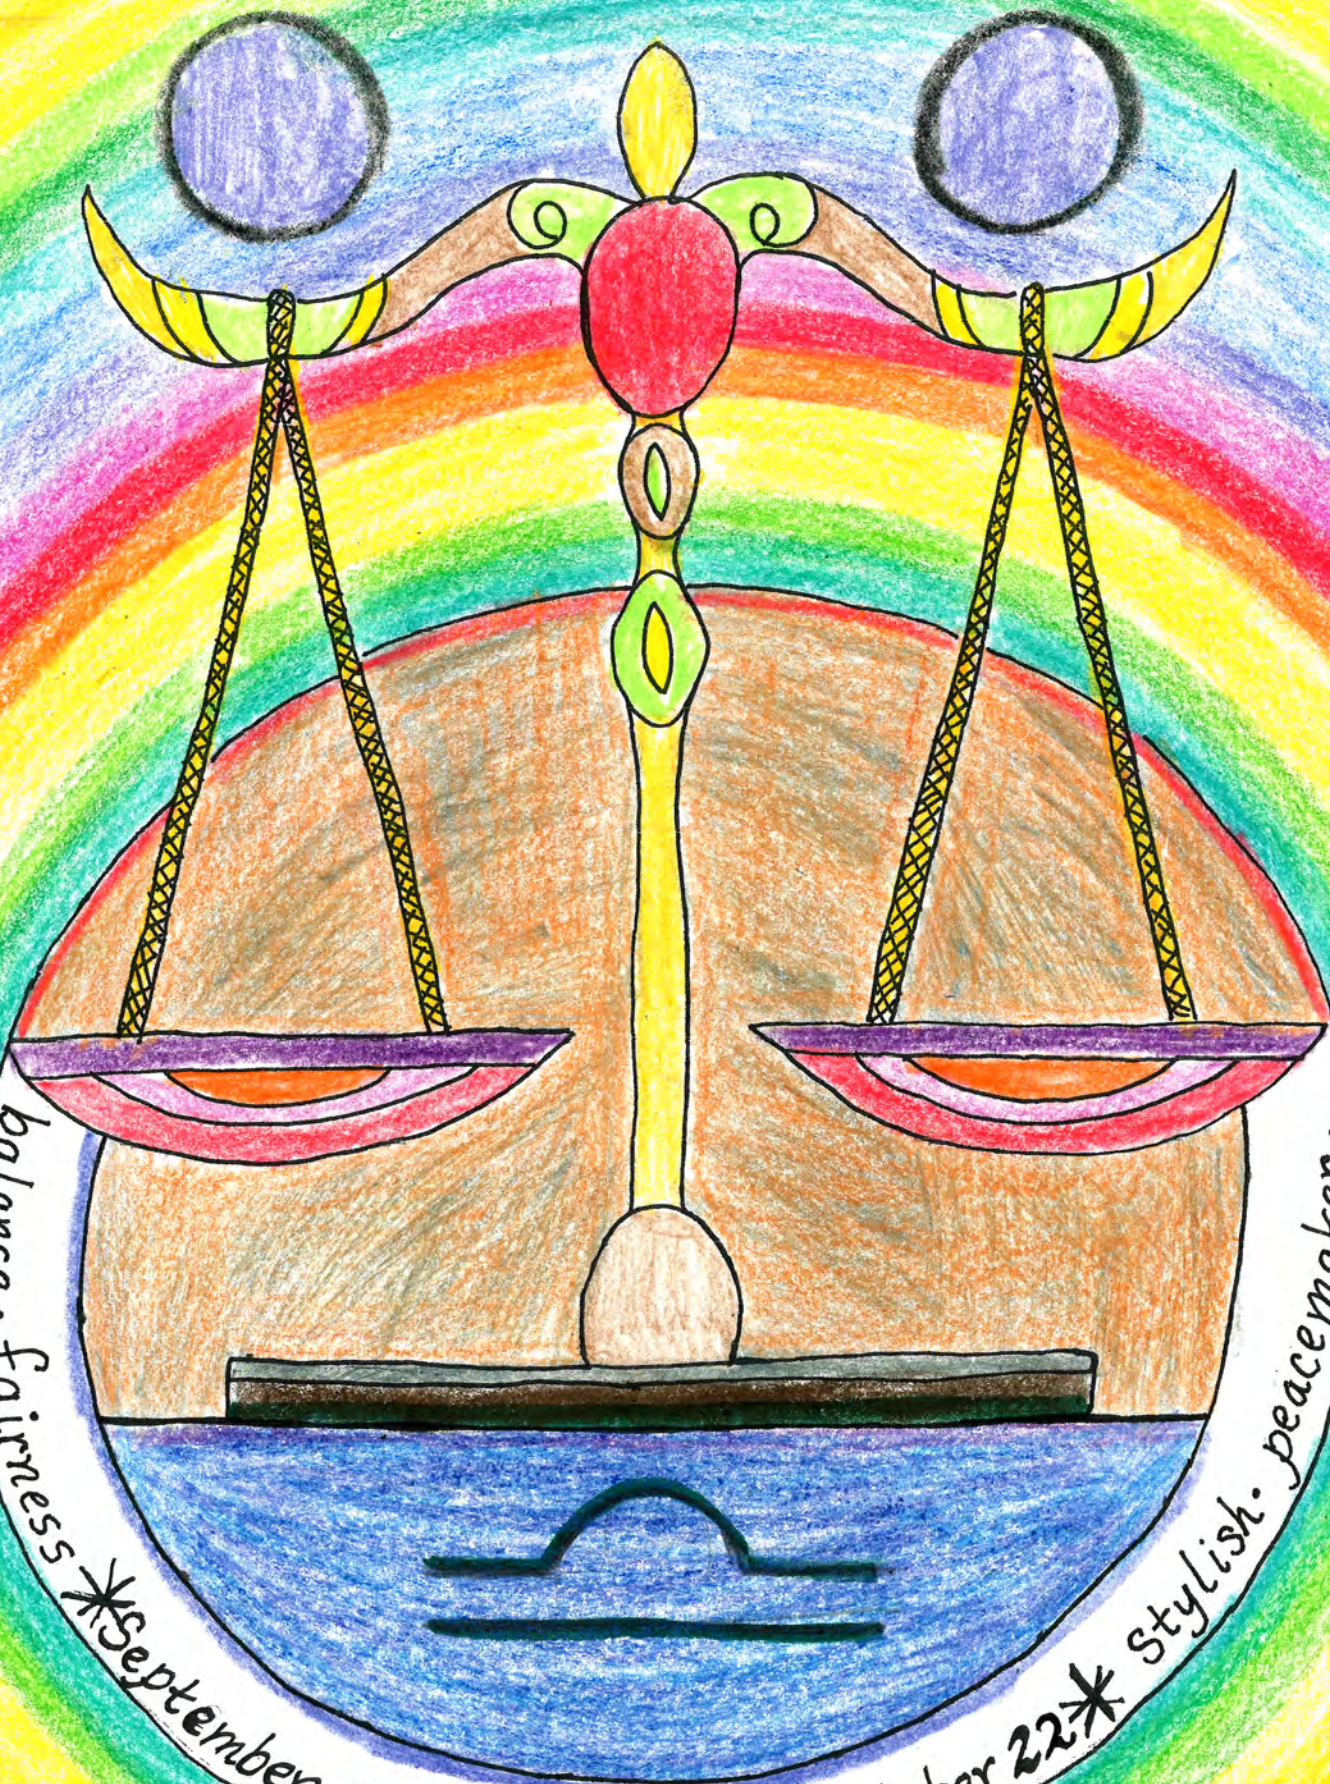

The birth dates to be born under the sign of Libra are September 23 to October 22. The attributes of Libra are balance, fairness, stylish, and peacemaker. The symbol for Libra is the scales of justice. Greek mythological divine law, involves the goddess Themis, daughter of heaven and earth. She holds the scales of justice and is about fairness. Ancient Romans and Egyptians were also followers of the scales of justice. Today the scales of justice are still about fairness. Each side gets a chance to present evidence and arguments to support its side. Justice weighs both sides and tries to find a solution that is true and fair. Your Art Class is true, just and fair!

The scales of justice are a great symbol. Unite the ideals of justice in this lesson. Study the black and white drawings of the scales of justice. Then draw your own or copy one of the drawings on to card stock. Complete in such a way to bring unity to your art.

Music Suggestion: Alicia Beth Moore, better known as Pink, sings “What about Us?” questioning fairness. Barbara Streisand and Barry Gibb sing a song titled “Guilty.” The Temptations have a great song “Ball of Confusion.” Sometimes we feel that law and right or wrong is just that.

Enrichment: The Scales of Justice above the Old Bailey Law Courts in London England is a sculpture by Walter Rawlings. There are hundreds of images of lady justice, holding the scales of justice. She is often displayed with a blindfold on because justice is not blind, however she is impartial.

Aspect of Art: Unity: Is an aspect of art that makes great art stand out. Colors, lines, spaces, patterns, and textures all work together to create the art. Unity is the way the artist organizes the work of art.

Series D, 4th Qtr, Week 41: **Your Art Class is in the Web**

Spider webs are scary. They are intended to catch prey and feel very creepy when we come in contact with. Spider webs are used in many Halloween decorations for just that reason. There are over 50,000 different kinds of spider webs because there are 50,000 different kinds of spiders, according to spider scientists known as arachnologists. Webs are made of a special silk protein and old webs, called cobwebs can last a long time. Ancient Greeks and Romans used spider webs as bandages. The black widow and brown recluse are the most poisonous of spiders, so try to avoid their webs! The St. Andrew's cross Spider weaves a special zig zag pattern in its web. Your Art Class can weave its own spider web just don't get caught up in it.

There are several black and white drawings and color samples of spider webs to inspect before drawing your own. You can also print one of the black and white drawings on card stock and complete. Try to use many different tones of a color when completing.

Music Suggestion: The band Cold Play with Chris Martin, Johnny Buckland, Guy Berryman, and Will Champion has a song "Trouble" on their "Parachutes" album that is about being caught in a spider's web. Jimmy Buffett has a song "Savanah Fare You Well" which also has a spider web. "Ordinary Miracle" by Sarah McLachlan is one of the many songs on the soundtrack from "Charlotte's Web."

Enrichment: The most famous spider webs are the ones in the Newberry award winning classic book and movies, "Charlotte's Web" written by Elwyn Brooks White. The illustrations by Garth Williams reveal the writing in the webs. In 2017 Perrin Stein curated The Metropolitan Museum of Art display titled "Art of the Spider Web."

Aspect of Art: Tone: An artist's tool which refers to light and dark shades.
